

How do you make the decision to process the meat or use your purchase as advertising?

Here is some information to help you make that decision.

- 1 | All processors are currently over-booked with processing. So if your freezer is low, you may want to get the meat processed. Any of our processors will cut and wrap your meat to your specifications.

We will be selling the animals per Head. This is a change from previous years.

260# pig @\$351 per head (1.35 per pound)

- 2 | **If you are just buying for advertising, the buy back program is an option.**

You will pay the difference between the bid price and the buy back price.

For Instance:

260# pig purchased at \$351 per head

Buy back is \$174.20 (minimum or opening bid equal to .67 per pound)

You would pay \$176.80 per head

The 4H member will receive the \$351

- 3 | You can purchase the animal and donate it to charity (Local Food Bank)
- 4 | You can purchase the animal and give to your friends, family or employees.
- 5 | You will also have the option to donate to the 4H member. There will be a donate button with the project. This is money will be in addition to bid price.
